THE ELMIRA HORRORS.

Judge Learned is ill, and the meeting of the Elmira Reformatory Commis-sion, which was to have been held yesterday, has been postponed until next Tuesday. There is thus a halt in the investigation for a week. But the brutalities practised on the unfortunate letims of Brockway's malice and inhumanity do not cease for a moment The savage blows of the paddle still fall heavily across the loins of the suspended sufferers; the horrors of the dark cell with its iron bars and chains are still before the eyes of the wretched prisoners; the vengeance of Brockway threatens without any censation those who have borne witness to his crucities. It is to be deeply regretted that Gov. Flower does not see his way clear to the absolute removal of Brockway from the Reformatory, now that the rewarding of friendly witnesses and the merciless punishment of unfriendly ones are made clear. If anything can add to the scandai of the atrocities practised at Elmira, it is the disgraceful fact that they have the apparent sanction and encouragement of the Governor of the State.

Baseball never achieved a more popular success than that at the Polo Grounds yesterday, when amateur dev otees of the game won laurels for themselves, furnished a fine afternoon's entertainment for a host of good friends and, best of all, earned nearly \$1,200 for the Sick Bables' Fund of "The Evening World." Long life, happiness, prosper ty and all sorts of good things to each nd every member of the "1492" and organizations. And equal blessings to the fair ladies of the stage who ably seconded the enterprise that resulted so greatly to the benefit of the Fund and of the little ones for whom the money will be spent.

Industry is slowly but steadily reviv ing from the prostrating effect of hard times. Is it practical sympathy for labor which seeks to drag the laboring is at work in the land, in the name of a aid?
